

SEP 110 neckloop microphone – remote barrel PTT for surveillance radios

SEP 110 is a covert inductive neckloop / microphone system, complete with remote barrel PTT (push-to-talk) for use with wireless earpieces in a covert surveillance role.

TECHNICAL DATA

WEIGHT	98g
CABLE LENGHT LOOP - CIRCUMFERENCE	740mm
CABLE LENGHT SPLITTER - LOOP	300mm straight
CABLE LENGHT SPLITTER - PTT	1020mm straight
CONNECTOR	Radio specific
COLOUR	Beige only
LOOP IMPEDANCE	45 Ohms
MIC IMPEDANCE	2.2 K Ohm
MIC SENSITIVITY	-33 dB ref 1 Volt / Pascal

Designed for following uses and industries

KEY BENEFITS

- Inductive neckloop with built in microphone
- Separate barrel style PTT
- Can be upgraded to provide tone generation for use in place of speech
